Membership terms

Corporate groups and coverage

Applicants disclose their legal entity, parent or group relationship, commonly controlled EV businesses and completed financial-year turnover. Benefits attach only to the admitted entity and its approved representatives. Additional group entities require separate admission or an expressly approved group arrangement; enrolling a smaller affiliate does not extend privileges to the whole group.

Governance

All admitted members are invited to General Body meetings in accordance with IFEVA's governing instruments, irrespective of category. Membership does not confer a Governing Council seat, office-bearer position, voting right beyond IFEVA's governing instruments, regulatory authority or government endorsement. Access to officials, ministerial meetings, keynote speaking positions and policy outcomes cannot be purchased or guaranteed. Participation in events, delegations and editorial programmes is governed by eligibility, selection and availability.

Term and renewal

Annual memberships run for 12 months and five-year memberships for 60 months from the date of admission. Privileges lapse when a subscription expires. Category upgrades during a term are adjusted on a pro-rata basis as confirmed by the Secretariat.

Institutional contributions

IFEVA may recognise non-financial contributions such as chapter premises, event venues, accommodation, logistics, technical expertise and industry outreach. Any concession, recognition or related responsibility requires separate written acceptance and does not confer governance authority or an official appointment.

Fees and taxes

Subscriptions are paid with the application through IFEVA's online payment page, against a receipt. If admission is not approved, the fee is refunded in full; once admission is confirmed, the fee for the term is not refundable. Applicable taxes and their treatment are confirmed by the Secretariat.

Code of conduct

Members use the IFEVA name and logo only as permitted in writing, represent their membership accurately, and do not describe membership as an endorsement, certification or rating of their products or services.
